

VANESSA CAVALYA

Bradley Dean, D.D.S.

PERIODONTICS

A true specialist in every sense, Dr. Bradley Dean is sought after for his expertise in reconstructive, implant, and cosmetic dentistry at his state-of-the-art, boutique-style Plano office. Trained extensively in periodontics and implants, he has lectured nationally and internationally on periodontics and is a board member of the Texas State Board of Dental Examiners and a Diplomate of the Board of Periodontology. His mission is to educate his patients about their dental needs in a comfortable environment. “No two implants are ever the same,” he says. “My goal is to find the best solution for my patients’ problems, no matter how complex.” Now in his 27th year of practice, he was among the first dentists in the area to use “All on Four” dental implants and, in fact, brought the technology to North Texas. From single-tooth replacements to full-mouth restorations, Dr. Dean works diligently to ensure the work he does lasts for years to come so that his patients maintain beautiful, healthy smiles.
